## ESTIMATES ON CHANGES

TO BE MADE BY CANAL

Salt Lake, Nov. 4.—Several of the local agents of the Salt Lake and the traffic departments of the Oregon Short Line, the Denver & Rio Grande and the Salt Lake route have been asked by eastern traffic managers to give their views upon the matter of the opening of the Panama canal in respect to the handling of transcontinental traffic. The eastern men are practically unanimous in the belief that it will change the traffic may of the United States and they also feel that Boston instead of New York will become the greatest seaport on the Atlantic coast. The inquiries which have been sent to this city deal with figures relative to how much freight will come into Salt Lake and vicinity from the Pacific coast with the opening of the canal, which would under the present conditions be handled by the transcontinental railroads. Owing to the harbor in New York being blockaded with passenger traffic the railroad men feel that Boston is to become the great freight shipping center. Within a few days the local men will have made their estimates and they will be made public.

## EASTERN ROADS ARRANGE

FOR BIG TRAVEL IN 1914

The New York Central lines and the Pennsylvania lines east are leasing all of the dead equipment which they can find for 1914 and 1915. The expected heavy travel to the west has caused these roads to contemplate the running of through trains from New York and Boston to San Francisco. Announcement was made at the New York Central offices yesterday that at least three trains would be put on out of New York and Boston and the these trains would be consolidated at Chicago and St. Louis and sent on through to the coast without a change of Pullmans. The Pennsylvania lines have already arranged for the running of through Pullmans to the San Francisco destination.
